We are a Patient Association

We came to life in 2010.

We are a non-profit civil society force working in the public interest, consisting of patients and their relatives.

- We are a member of «International Federation of Psoriasis Associations (IFPA)» that fights psoriasis.

We are an organization that has been trying to raise awareness about psoriasis since the day we were founded.

- We represent psoriasis patients in our country.
- We organize scientific, social and cultural activities related to the disease.

- We are working to raise awareness of all health institutions, specialists and all segments of society related to the disease.

- We support patients and their relatives with the 'health for all' approach.

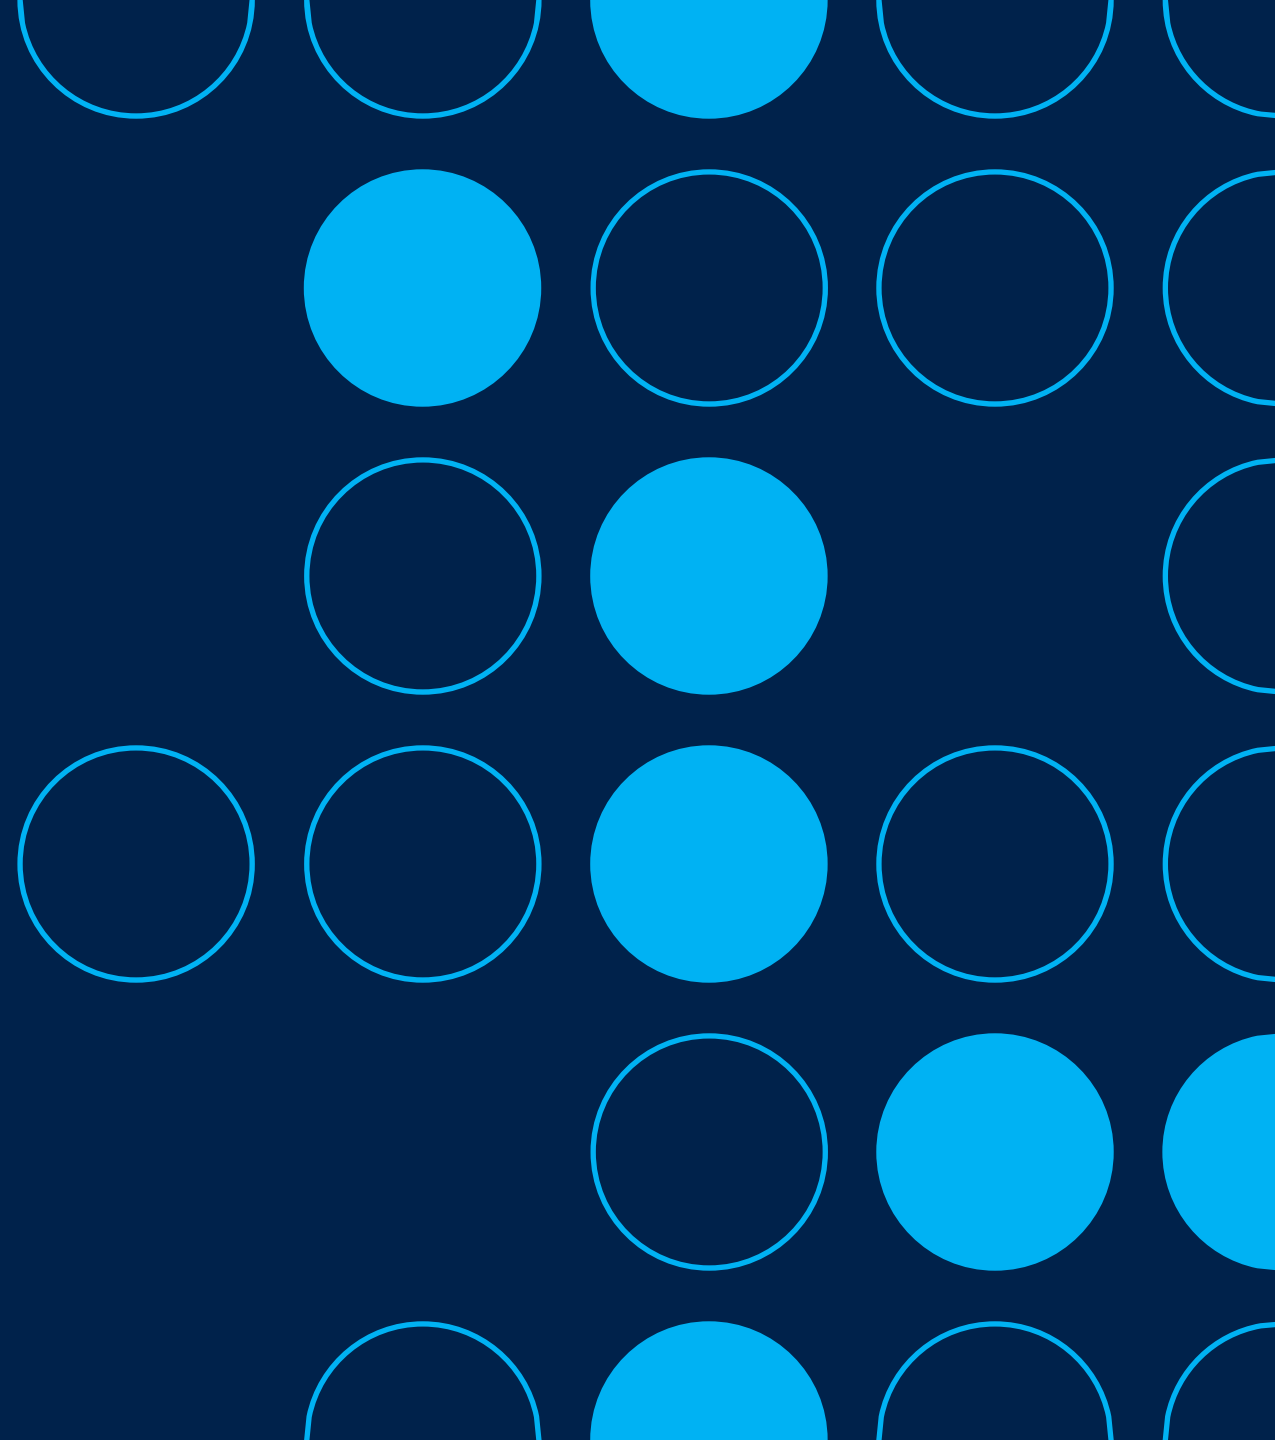

- We develop projects for better solutions in the field of health and defend the rights of patients.

- October 29 is known as World Psoriasis Day all over the world.
 - Since 2017, we have been holding national and international events specially for this day.
-

29 • October
World Psoriasis Day

- We held the first summit on October 26, 2017, in Istanbul.
- At the patient experience summit, we hosted Mr. Lars Ettarp, the president of IFPA, of which our association is a member, as well as representatives from many countries.

- We contribute to the sharing of international knowledge and experience in the field of disease through the events we organize at the national and international level.
-

- By inviting patients and their relatives to our seminars, we contribute to their experience and knowledge in the field.
